01

Brand idea

Necro is a graveyard where dead feeds come back to life. RSS was left for dead; Necro resurrects it with AI that reads with you and turns what you read into posts you can share.

THE NAME

Necro

From the Greek *nekros*, the dead. Short, memorable and true to the idea: technology the world gave up on, raised again.

THE MOOD

Elegant, quiet, eerie

Moonlight, fog and a green glow. Never gore or cheap horror. Every spooky detail supports the function.

THE LINK TO FAAFI

Spread what rises

The signal inside the tombstone is Faafi's mark. Necro is Faafi's first module: from reading to sharing.

TAGLINE

RSS, resurrected with AI.

02

Personality and naming

Themed words make Necro memorable. A plain subtitle always keeps it easy to use.

WE ARE / WE ARE NOT

Atmospheric, calm, crafted	Gory, loud, cartoonish
Clever with theme words	Confusing
Fast and useful	Decoration that slows people down

EXAMPLE COPY

"The graveyard is quiet. Summon your first feed to bring it to life."

"3 feeds rose tonight."

"This feed did not answer. Feed Doctor can try to revive it."

NAMING

Themed label	Plain subtitle
Summon feed	Add a feed
The Graveyard	Your feeds
The Crypt	Reader
Séance	AI summary
Resurrect	Create social posts
Feed Doctor	Fix broken feeds
Bury feed	Remove feed
Risen	New

03

Logo

An arched tombstone with the spreading signal inside: a dead feed rising again. The wordmark is Cinzel Bold with wide spacing, converted to outlines.

Primary · horizontal

Stacked · for square spaces

Symbol
Tombstone + signal. Use alone for favicons and small UI.

Wordmark
NECRO in capitals. Never retype it in another font.

Horizontal first
Use stacked only where width is limited.

04

Logo versions

Four versions. Choose the one with the strongest contrast against the background.

Dark (primary)

On Midnight and dark surfaces

Light

On Bone and light surfaces

Mono black

One-colour print on light

Mono white

One-colour on dark or photos

LOGO COLOURS

- **Ectoplasm** #7CF29A
- **Bone** #F1ECE2
- **Midnight** #0D0A14

GLOW

A soft Ectoplasm glow may surround the logo in the interface and video. Never bake shadows or glow into the logo file.

ONE-COLOUR

For stamps, stickers or print with one ink, use Mono black or Mono white only.

05

Clear space and minimum size

Keep text, images and edges outside the clear space.

Clear space = **x** on every side, where x is half the tombstone width

MINIMUM SIZE

Version	Screen	Print
Horizontal	110 px	28 mm
Stacked	72 px	20 mm
Symbol / app icon	16 px	6 mm
Wordmark	80 px	20 mm

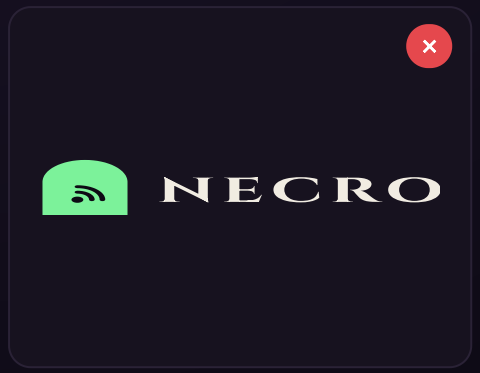

Actual minimum sizes on screen

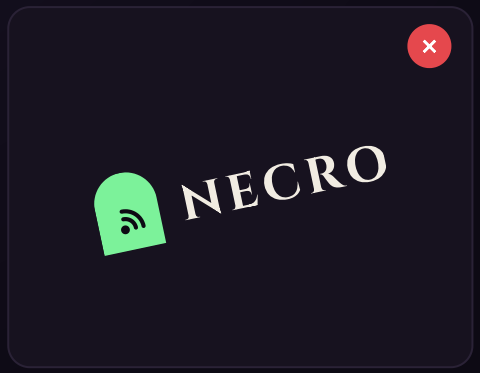

06

Logo misuse

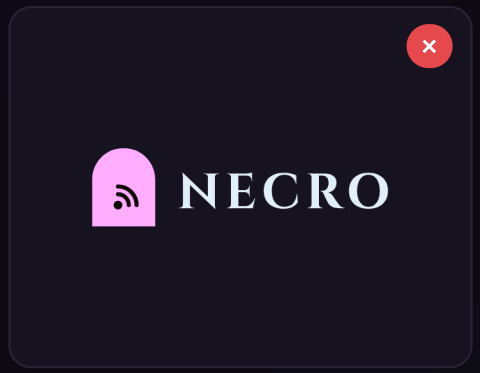

These changes weaken recognition.

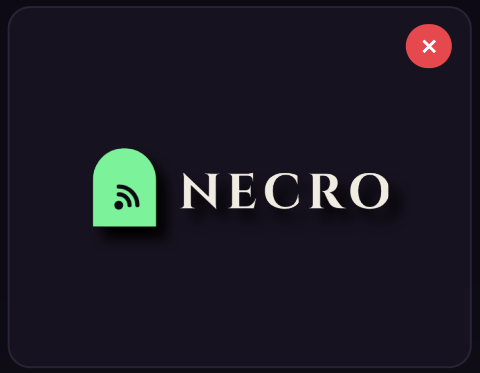

Do not stretch

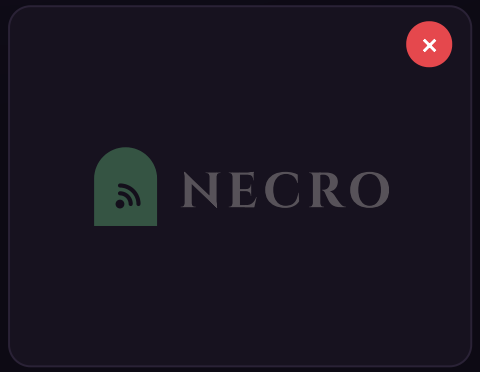

Do not rotate

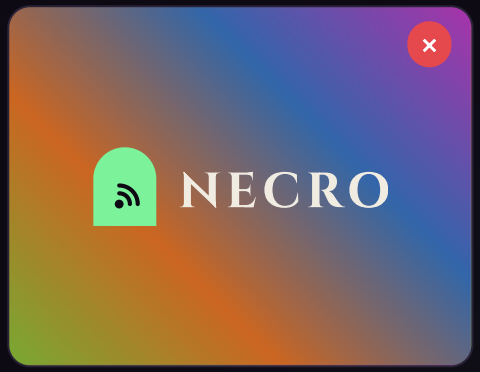

Do not recolour

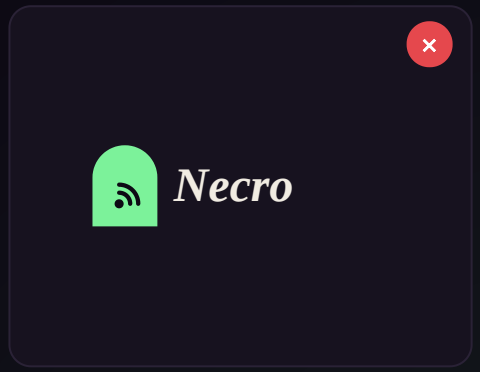

Do not add shadows

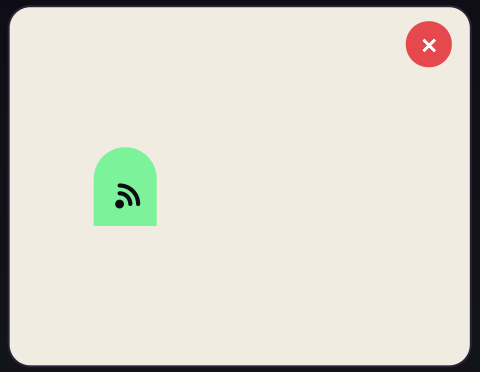

Do not lower contrast

Do not use on busy images

Do not retype the wordmark

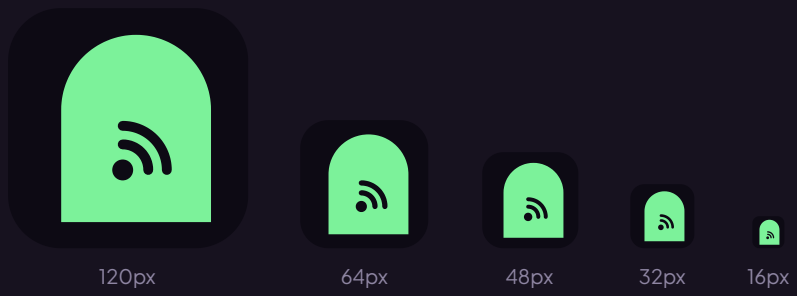

Do not use the dark version on light

07

App icon and favicon

The tombstone on a rounded square. Corner radius 22% of the icon width.

Dark app icon at common sizes

VERSIONS

Dark is the default. **Light** is for light surfaces.

RULES

- Keep the tombstone centred; never crop the arch.
- Use the full-bleed square files for circular profile crops.
- Favicons and web manifest are in folder 06.

Feed Doctor can help

Arched top: border-radius 999px 999px 12px 12px. Risen cards glow once in Ectoplasm.

13

Motion and sound

Movement and sound tell the story: something has risen.

Moment	Effect	Timing
New item rises	Tombstone lifts 4 px, one Ectoplasm glow pulse	600 ms
Background	Slow drifting fog	30 to 60 s loop
Resurrect	Drafts fade up one by one	150 ms stagger
Empty states	Floating ghost or candle flicker	Subtle loop
Easing	cubic-bezier(.2, .8, .2, 1)	

RULES

- Respect prefers-reduced-motion: use simple fades instead.
- Sound is **off by default**, with a toggle in Settings.
- Short, quiet sounds only: soft chime on rise, low whoosh on resurrect.
- No copyrighted music anywhere, including the demo video.

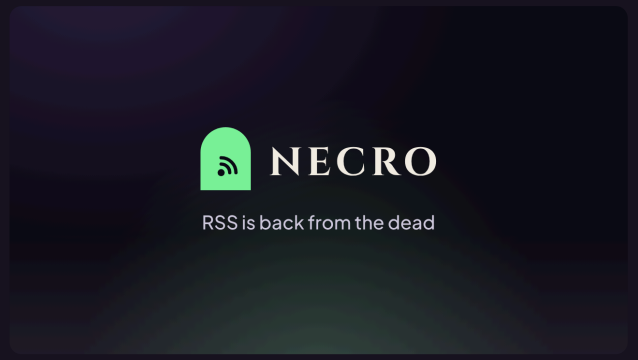

14

Social media

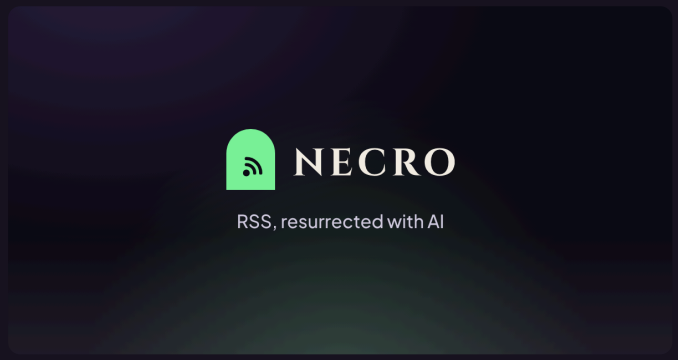

Ready-made images are in folder 07.

Devpost cover · 1600 × 900

YouTube thumbnail · 1280 × 720
